

INSTALLATION **GUIDE**

To install your pack just follow those *two simple steps*:

1. Double click on the **.DRFX** file and select **"Install"**
2. Open the **"Fonts"** folder provided and **install the fonts**.

MAC:

Select all the fonts and double click on them to start the installation process.

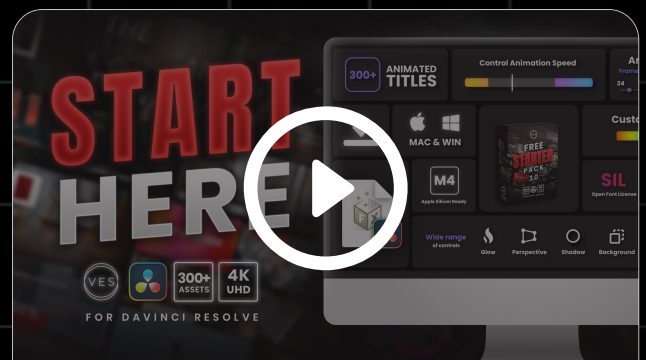

WINDOWS:

Select all the fonts, right click and select install.

(It's very important that the fonts are installed, without them, DaVinci will not know which font to use, resulting in a black screen)

Watch the **Get Started video** to learn how to use the assets.
